About Multisoft

Train yourself with the best and develop valuable in-demand skills with Multisoft Systems. A leading certification training provider, Multisoft collaborates with top technologies to bring world-class one-on-one and certification trainings. With the goal to empower professionals and business across the globe, we offer more than 1500 training courses, which are delivered by Multisoft's global subject matter experts. We offer tailored corporate training; project Based Training, comprehensive learning solution with lifetime e-learning access, after training support and globally recognized training certificates.

About Course

The AWS Certified Database Specialty (DBS-C01) training by Multisoft Systems is a comprehensive program designed for professionals seeking to master database design, implementation, and management on the AWS platform.

Module 1: Workload-Specific Database Design

- ✓ Select appropriate database services for specific types of data and workloads.
- ✓ Determine strategies for disaster recovery and high availability.
- ✓ Design database solutions for performance, compliance, and scalability.
- ✓ Compare the costs of database solutions.

Module 2: Deployment and Migration

- ✓ Automate database solution deployments.
- ✓ Determine data preparation and migration strategies.
- ✓ Perform and validate data migration.

Module 3: Management and Operations

- ✓ Determine maintenance tasks and processes.
- ✓ Determine backup and restore strategies.
- ✓ Manage the operational environment of a database solution.

Module 4: Monitoring and Troubleshooting

- ✓ Determine monitoring and alerting strategies.
- ✓ Troubleshoot and resolve common database issues.
- ✓ Optimize database performance.

Module 5: Database Security

- ✓ Encrypt data at rest and in transit.
- ✓ Evaluate auditing solutions.
- ✓ Determine access control and authentication mechanisms.
- ✓ Recognize potential security vulnerabilities within database solutions
