## About Multisoft

Train yourself with the best and develop valuable in-demand skills with Multisoft Systems. A leading certification training provider, Multisoft collaborates with top technologies to bring world-class one-on-one and certification trainings. With the goal to empower professionals and business across the globe, we offer more than 1500 training courses, which are delivered by Multisoft's global subject matter experts. We offer tailored corporate training; project Based Training, comprehensive learning solution with lifetime e-learning access, after training support and globally recognized training certificates.

## About Course

OpenBots is an enterprise-grade robotic process automation (RPA) platform designed to streamline business processes efficiently and cost-effectively. Multisoft Systems' OpenBots Training provides professionals with in-depth knowledge and hands-on experience in designing, developing, deploying, and managing automation workflows using OpenBots.

## Module 1: Introduction to RPA

- ✓ Provides A Brief Overview of RPA In General.

## Module 2: OpenBots Overview

- ✓ In This Section We Will Review the OpenBots Platform and Provide a High-Level Explanation of Each of Its Components.

## Module 3: Installing OpenBots Studio

- ✓ We Will Go Through the Process for Installing OpenBots Studio and Agent on Our Machines.

## Module 4: Managing Variables

- ✓ Learning How to Create, Use and Manage Variables in OpenBots Studio.

## Module 5: Interacting with Web Applications

- ✓ Will Go Over How to Navigate, Interact with and Extract Data from Web Browsers.

## Module 6: Recorders

- ✓ Reviewing How to Utilize the Recorders Available in OpenBots Studio to Help You Build Your Automations.

## Module 7: Using Excel in OpenBots

- ✓ Learning How to Use Excel and Spreadsheets in Automation. Will Also Focus on Using DataTable Variables.

## Module 8: Word and Text Documents Automation

- ✓ Will Review How to Use Automations to Create and Use Word/text Documents.

## **Module 9: Folder/File Management**

- ✓ Review Commands Available for Moving and Manipulating Files and Folders. This Will Also Include Some Guidance for Best Practices to Be Followed When It Comes to Archiving and Storing Files Utilized by Automations.

## **Module 10: UiAutomation**

- ✓ Will Provide a Deeper Understanding of The Functionality That Is Included as Part of The UiAutomation Package.

## **Module 11: Outlook/Email**

- ✓ Learn How to Use Outlook and Create/manage Emails Using Automations.

## **Module 12: Exception Handling/Debugging**

- ✓ This Section Will Focus on Available Commands to Aid in Exception Handling and How to Debug Common Issues That Can Occur with Bots.

## **Module 13: Hands on – Automation Exercise**

- ✓ We Will Have You Create an Automation That Will Require You to Utilize A Few Of the Topics Covered So Far.

## **Module 14: Image Based Automation**

- ✓ We Will Review How to Handle Image-Based Processes Such as How to Work with Citrix Style Applications.

## **Module 15: Package Management**

- ✓ This Will Be a Quick Section That Will Review How to Include and Manage Packages in Your Projects.

## **Module 16: Hands on – Automation Exercise**

- ✓ At This Stage We Will Provide You with Another Exercise That Will Provide You with An Opportunity to Put Some of The More Recent Topics into Practice. Guidance Will Be Provided as Needed While Working on This.

## **Module 17: OpenBots Server Installation**

- ✓ We Will Begin by Going Through the Process for Installing OpenBots Server to A Machine.

## **Module 18: How to publish projects to Server**

- ✓ Reviewing The Basics for Publishing Your Completed Projects to Server and Connect the OpenBots Agent to Server.

## **Module 19: Assets and Scheduler**

- ✓ How To Create and Manage Assets as Well as Go Over How to Schedule Your Published Projects to Run at Predetermined Times.

## **Module 20: Credentials**

- ✓ How To Use OpenBots Server to Securely Manage Credentials.
